## REPORT ON CAREER COUNSELLING SESSION

SSIS collaborated with WoRisGo to conduct online career counselling workshop for students on the theme of "Geopolitical Political Risk Analysis And Its Scope In The Corporate World."

Contents covered in the session:

- Understanding what Risk Mitigation/Risk Analysis is. Answering the question "What is Risk?" – Shubhaj Poricha
- Relevance of geopolitical risk assessment and mitigation strategies for the business community (explanations with contemporary examples). – Shubhaj Poricha
- Scope of opportunities in the field for a student with social sciences background – Nischal Dave
- Introduction to WoRisGo's work and its internship program – Nischal Dave
- Questions from students

The session also highlighted the risk analysts' work profile and what is expected out of him. The three core areas are research, analysis and forecasting. These skills are of utmost significance in the risk analyst sector as research is needed to have the idea about problem, analysis is required to understand and interpret the situation and lastly forecasting is coming up with report of possible solutions.
